

The Brother, IP54 rated, RuggedJet Range is ideal for the mobile workforce. They have sturdy buttons and belt clip for 'on the job' printing and being splash, dust and shock resistant they can withstand the harshest conditions.

With a choice of 2, 3 or 4 inch print width models available, most receipting and ticketing formats can be accommodated. BPL (ZPL emulation) also allows existing applications for label printers to work with the RuggedJet without further development costs.

With printing speeds up to 152mm/second these are also amongst the fastest printers in their class making them ideal for emergency services, public safety workers, field sales, delivery drivers, engineers and traffic wardens where speed is key to their operation. Wireless interfaces simplify connectivity to mobile devices and AirPrint compatibility allows printing direct from iOS devices without the need to install drivers.

## Manufactured by...

## Supplied with

- USB cable
- Battery pack
- Belt clip

## Options

- AC adapter
- Shoulder Strap
- Vehicle mounting cradle (RJ-3000 only)
- Vehicle power adapter

## Features & Benefits

- Direct Thermal Rugged Mobile Printer
- 2, 3 or 4 inch print widths - suited to most mobile receipt/ticketing applications
- High speed (152mm/sec) printing - for fast throughput
- Small & light - comfortable to use with belt clip or shoulder strap
- IP54 Certified & drop tested up to 2.5m - for use in harsh environments
- USB or Wireless interfaces - for easy connectivity
- Li-ion battery pack - charges quickly & prints anywhere
- Prints all barcodes - suitable for every coding situation

## RuggedJet Range Specifications

SPECIFICATION	RJ-2000	RJ-2100	RJ-3000	RJ-4000	RJ-4200
Life Cycle	Current Product			End of Life: 2019/2020	Replaces RJ-4000
Printing System	Direct Thermal				
Case Colour(s)	Black				
Cutting System	Metal Tear Bar				
Media	Paper roll	Paper roll, die cut labels & linerless labels			
Media width	58mm		25~80mm	104mm	45~113mm
Roll Diameter	40mm	60mm	66mm	58mm	
Resolution	203 dpi				
Printing speed	152mm/sec	127mm/sec			
Dimensions (WxDxH)	122x100 x57mm	151x100 x73mm	112x186 x80mm	162x176 x77mm	153x159 x68mm
Weight	465g	545g	750g	610g	850g
Interfaces	USB, Bluetooth (option: WiFi)		USB, Bluetooth & WiFi	USB, RS232 (option: Bluetooth/WiFi)	USB, Bluetooth (option: WiFi, NFC)
LCD	Backlit	n/a		Backlit	
Barcodes Supported	Most common 1D & 2D codes supported				
Battery Pack	Li-ion 7.2V			Li-ion 14.4V	Li-ion 7.2V
Charger	Available as an optional accessory				
Certification	IP54				
Drop Test	2.5m		1.2m	1.8m	2.1m
Operating temp.	-10 to +50°C			0 to +40°C	-20 to +55°C
Humidity	10 to 90%			20 to 80%	

## Applications

With their Battery power, shock, dust & rain resistant design, the RuggedJet range are ideal for printing anywhere and at any time. They reduce admin by printing professional, compliant documents.

- Outdoor, field events - Shows, market grounds, car parking
- Sport - competitor timing, logging results
- Field Service - on site or at customer's premises
- Retail - At the till, in the aisle, warehouse or beyond
- Industry - Serial numbering, Batch numbering, Barcode tracking, W.I.P. traceability, Inventory control, etc.
- Logistics - pickup/delivery information, bulk dispensing, on-board weighing
- Public Services - traffic enforcement, parking, rent collection, ferries, tolls
